In this workshop we will look at understanding dreams from a Jungian Perspective. Carl Jung was a contemporary of Sigmund Freud who was one of the pioneers in the concept of the Collective Unconscious, the idea that the deepest parts of our psyche draw from experiences common to all humanity and ultimately all life. We will discuss the Jungian idea of the Self, the organizing tendency in the psyche as well as the Shadow, Jung’s term for the part of us that we don’t want to acknowledge and tend to project onto others.

Educational Objectives: Upon completion of this activity, participants will:

1. Define Associations in the context of dream interpretation.
2. Define Amplifications in the context of dream interpretation.
3. Identify three essential differences between Sigmund Freud's and Carl Jung's approach to dream interpretation.

Jacob Winkler, LCSW, CGP, CAMS-II, received his Master’s degree in Social Work from Rutgers University and has pursued training at the C.G. Jung Institute of New York and the Center for Group Studies. He provides individual and group therapy, clinical training and supervision in his private practice in Highland Park, NJ.

Mission and Goals. Promote professional excellence through affordable seminars, peer support and mentoring, journals, and newsletters. Protect the rights of Clinical Social Workers and their clients by monitoring the activities of HMOs, Insurance Plans and Legislative action and advocating on their behalf. Actively work to promote and enhance the image of Clinical Social Work and the development/enhancement of prerogatives for Clinical Social Workers and their clients in keeping with standards set for other mental health professionals.
